

REPORT
ON THE
ADMINISTRATION
OF THE
Jaisalmer State
FOR THE YEAR
1923-24

(1st November 1923 to 31st October 1924)

Published by
RAO BAHADUR M. R. SAPAT
OF KHERHO

Dewan, Jaisalmer State.

To

His Highness Maharajadhiraj Shri Maharawalji
SIR JAWAHIR SINGHJI SAHIB BHANDU, K.C.S.I.
OF JAISALMER.

Dated Jaisalmer, the 16th January 1927.

May it please Your Highness,

I beg most respectfully to submit
the Annual Administration Report of Your Highness' State, for the
year ending the 31st of October 1924.

I beg to remain,

Your Highness' most humble & obedient servant,

M. R. Sapat

Dewan Jaisalmer State.

Report on the Administration of Jaisalmer State for the year 1923-24.

CHAPTER I.

1. General and Political. 1. The State of Jaisalmer covers an area of 16,062 square miles. Its population, according to the last census of 1921, is 67,652 and its gross revenue, based on the average of the last five years, is Rs. 2,771 Akheshahi and Rs. 2,96,882 Kaldar. It has not to pay any tribute either to the Imperial Government or to any Native State.

2. The Rulers of Jaisalmer are descended from the ancient Yadu Kings of the Lunar Race. The most illustrious ruler of the line was the defied hero Shri Krishna, who ruled at Dwarka and who was one of the greatest rulers, statesmen, generals, thinkers, and philosophers that India has ever seen. One of the most venerable and prized heirlooms of the House of Jaisalmer is the "Meghadamber," an umbrella which, according to traditions Shri Krishna used on the occasion of State and which is being similarly used up to the present day by his lineal successors. The ruler of Jaisalmer is hence styled "Chhatrala Yadu Pati," the canopied lord of the Yaduvas. The eight-mettaled umbrella which surmounts Jaisalmer palace towering high above the venerable walls of the historic hill fort is emblematic of the Meghadamber and is indicative of the proud position which the House of Jaisalmer occupies as the Head of the Lunar Race and its off-shoots.

3. The valour which the Bhatias princes of old displayed in repelling the successive waves of Mohammedan invasions, earned for them and their descendants the proud title of "Uttar Bhar Kiwar Bhati" that is Bhatias the mighty portals of the North (of India).

4. Jaisalmer is connected by marriage with Udaipur, Jodhpur, Bundi, Bikaner, Kotah, Kishengarh, Sirohi and Drangadhara.

5. His Highness Maharajahdhiraj Maharawal Sir Jawahir Singhji Saheb Bahadur, K. C. S. I., the present Ruler, succeeded to the Gadi in 1914. Her Highness Hadiji Shri Kalyan Kanwariji Saheba is the senior Maharaniji and the junior Maharanijis are Their Highnesses Shri Sodhiji and Shri Umerkotiji Sahebas. His Highness, heir-apparent Maharaj Kumar Shri Girdharsinghji Saheb by Maharaniji Shri Sodhiji Saheba, has completed his 17th year. He prosecuted his studies in Mayo College, Ajmer, during the year under report.

6. The nearest relatives of the Ruling Family are called Rajwis, their names are given below :—

(a) Thakuran Raj Shri Gopalsinghji Saheb and Narainsinghji of Dudhoo,

(b) Thakuran Raj Shri Sultansinghji Saheb of Nachna and his son Kanwar Gordhan Singhji.

7. Those relatives that owing to their lineage or to their adoption, are comparatively remote in relationship, are called Rawlots. The Thikanas according to their order

of precedence are as under :—

Tota, Sato, Bhadria, Loharki, Uwai, Ola, Kanod and Pithai.

8. His Highness' Tour. His Highness accompanied by his Dewan, toured through several of the Hakumats during the year under review.

9. Visit of the Resident, Western Rajputana State.

Mr. L. W. Reynolds, C.I.E., M. C., I. C. S., Resident, Western Rajputana States, accompanied by Mrs. Reynolds, paid a visit to Jaisalmer on the 17th January 1924.

nolds, paid a visit to Jaisalmer on the 17th January 1924.

10. Changes in the Administrative Machinery and Personnel.

There was no important change in the personnel or administrative machinery of the State.

the State.

CHAPTER II.

11. Administration of Land. Land Revenue is, as a rule, taken in kind. The system of payment in kind, instead of in cash, is better suited to the existing local conditions and afford automatic relief to the cultivators in years of deficient rainfall.

12. The rates of assessment— $\frac{1}{6}$ th of the out-turn of Kharif and $\frac{1}{5}$ th of that of Rabi Crops are low and the ryot finds no difficulty in paying the State dues.

13. The yield was estimated last year at 11 and 10 annas in the rupee for the Rabi and Kharif crops respectively. The actual outturn of both the crops was up to the estimate.

14. The estimates for the next financial year are $1\frac{1}{2}$ and 6 annas for the Rabi and Kharif crops respectively.

CHAPTER III

15. Protection and Legislation. The Laws in Jaisalmer are not codified. The local usages and customary laws in force are generally followed and in cases wherein they do not differ from the laws in force in British India, due regard is paid to the principles of the latter.

16. Military and Police. As the Military are often required to do the duties of the Police and the Police of the Military, and as they have also to perform other civil duties when necessary, it is hardly practicable to draw a distinct line of demarcation between the two and no attempt has, therefore, been made to fill in Appendices III and IV.

17. The State Troops in the Town guard the records, Treasury, the Darbar Palaces and Bhandars, the Jail, Citadel gates, &c., &c., and they also do Police

and other civil work. In the Hakumats also, they do combined duties. Both the Military and Police are armed with swords and smooth bore guns.

18. The total strength of the State Troops (Police and Military) was 436 against 414 in the preceding year. Such of the men as were utilized for dacoity suppression formed a separate Mehkma called Gerai. The rest worked in different Hakumats. The cost, therefore, has been distributed under the Heads "Military and Hakumats."

19. A reference to Appendix VII will go to show that comparatively such petty offences as hurt, mischief and criminal trespass accounted for 183 out of 290 offences reported to have been committed during the year under report. There were 15 cases of misappropriation of property, 49 of thefts mostly cattle-lifting and 3 cases of robbery. Not a single case of dacoity was reported in the year, under review. The value of property stolen (such reports are often exaggerated) and of the recoveries made amounted to Rs. 5,640 and Rs. 2,827 respectively. Similar figures for the preceding year were Rs. 5,990 and Rs. 3,441.

20. Criminal Justice.

The number of Criminal Courts in the State is given in the subjoined table :—

Courts				No.
21. Criminal Courts.	Hakumats Courts	16
	Sadar Adalat	1
	Mehkmakhas	1
	Total			18

22. The Hakims in the District or Hakumat Courts commit cases beyond their powers to the Sadar Adalat and the latter likewise to the Mehkmakhas.

23. The number of criminal cases filed during the year was 290 which, with a balance of 555 cases pending from 1922-23, gave a total of 845 against 879 in the preceding year. The number of cases disposed of was 324 against 253 in the previous year and the closing balance was 555.

24. The number of persons involved in these cases was smaller by 49. The number remaining to be tried at the close of the year was greater by 32 than what it was in the preceding year.

25. **Appellate Courts.** Appeals from the Hakumat Courts lie to the Sadar Adalat and those from the latter tribunal to the Mehkmakhas.

26. **Appeals in Criminal Cases.** The total number of appeals in criminal cases, that came up to the Appellate Courts of the State, was 54 of which 44 were preferred in the Mehkmakhas and 10 in the Sadar Adalat.

27. The number of appeals disposed of by the Mehkmakhas and the Sadar Adalat was 33 and 8 respectively.

28. The number of appeals pending at the close of the year in the Mehkmakhas and Sadar Adalat was 11 and 2 against 9 and 6 respectively in the preceding year.

29. Out of the 33 cases decided by the Mehkmakhas, the orders of the Lower Courts were confirmed in 17, modified in 14 and reversed in 1 case. In one case proceedings were quashed.

30. In the 8 cases disposed of by the Sadar Adalat, the decisions of the Lower Courts were confirmed in four cases. In 3 cases the proceedings were quashed and in one case application was rejected.

31. Civil Justice

There are in all 18 Civil Courts in the State detailed as under:—

Courts.				No.
Civil Courts	{ District or Hakumat Court	16
	{ Sadar Adalat	1
	{ Mehkmakhas	1
	Total			18

32. Appeals from the Hakumat Courts lie to the Sadar Adalat which also hears original cases up to any value and those from the latter Court to the Mehkmakhas which is thus the highest Judicial tribunal in the State and exercises full powers of revision and control over all the subordinate courts.

33. **Original Civil Suits.** The total number of civil suits that came up for disposal by the various tribunals of the State was 621 against 680 in the preceding year and the number disposed of was 211 against 266 in the previous year.

34. Out of 207 civil suits filed during the year, 188 cases pertained to money transactions, 8 to landed property and the remaining 11 to other rights.

35. The average duration of each contested suit in the Sadar Adalat was 10 months and 2 days against 6 months and 27 days last year; while that in the Hakumats was 19 months against 12 months and one day in the preceding year.

36. Applications for Execution of Decrees.

The number of fresh applications for execution of decrees which were brought to the register during the course of the year under report was 90 which, with a balance of 459, gave a total of 549 against 572 in the preceding year for disposal; out of which 103 were executed against 113 in the last year.

37. Appeals in Civil Suits.

The total number of appeals in civil suits in the Mehkmakhas (including those pending from the last year) was 41 against 44; the number disposed of was 26 against 21 and the closing balance was 15 against 23 in the preceding year. Out of the 26 appeals disposed of by the Mehkmakhas, the orders of the lower courts were confirmed in 11, reversed in 6, and amended in 7 cases. Two cases were compromised or otherwise disposed of.

38. The total number of appeals in Sadar Adalat was 10. The number disposed of was 7 and the closing balance was 3 against 6 in the last year. The orders of the lower courts were confirmed in 6 and amended in one case.

39. The average duration of each case in appeal was 9'8 and 7.50 in the Mehkma-khas and Sadar Adalat respectively.

40. Extradition. The State has an extradition Treaty with the British Government and an understanding on the subject with Marwar and Bikaner.

41. During the year under review 18 persons were extradited to Marwar and one person was surrendered by Marwar to this State.

42. Jail. There is one Jail at the capital and there are 16 Lock-ups at the headquarters of the Hakumats.

43. There are separate quarters for male and female prisoners in the Central Jail. It was under the supervision of the Superintendent Sadar Adalat and the sanitary arrangements were looked after by the Medical Officer in charge of the Darbar Hospital. The conduct of the prisoners was generally good and the sanitary arrangements were satisfactory.

44. On the date of the commencement of the administrative year, the number of the prisoners was 52 which, with 21 fresh admissions during the year, made a total of 73 inmates. The average daily strength was 44.42 against 36.96 in the last year.

45. Thirty-two prisoners were discharged on the expiry of their sentences and two were released on the occasion of the Birthday Anniversary of His Highness the Maharwal Saheb Bahadur. The number remaining at the end of the year was 39.

46. The total expenditure incurred under this head was Rs. 3,177 against Rs. 3,849 in the preceding year.

47. The average period of the accused under trial was 17'31 against 16'20 days last year.

48. Registration. Registration is not compulsory in Jaisalmer except on sales of immovable property. During the year under review five documents were registered against 13 in the preceding year.

49. Sanitary Arrangements. There are no Municipal Committees or Corporations in the State. The sanitary arrangements are looked after by the local officials.

50. There was sufficient supply of water in Gadsar and in the wells in the villas adjoining it. Suitable arrangements were made to see that the drinking water was not contaminated.

CHAPTER IV.

50. Precarious Character of seasonal rains on which depends local yield.

No perennial stream runs in Jaisalmer, and wells, as a rule, are too deep to be utilized for irrigation purposes. The yield, therefore, depends entirely upon seasonal rains, i. e. on a factor which is beyond administrative control, which is freakish in its character and erratic in its course, which remains an uncertain

and unknown and an unknowable quantity almost to the end of the financial year, and which not infrequently, rudely upsets such calculations as might have been based on an assumption of its reliability. Deficiency of rains is almost a normal condition and its failure implies simply a difference in degree. The habits, the pursuits, the avocations, the customs, the traditions and the breeding of the bulk of the people are such as may be calculated to obviate the possibility of deficiency or failure of rains resulting in any general widespread distress.

52. Recuperative Power & Adjustment to surroundings.

The recuperative power of the State and its people that had lived for centuries past and from the very dawn of authentic history under such abnormal conditions is enormous. One is seldom likely to find such an economic, physi-

cal, moral and mental adjustment to the surroundings as is to be seen in Jaisalmer. This adjustment is the result of the long-standing struggle against nature in which man has come out top. It testifies to the success with which he can adapt himself to his surroundings. It acts as a palliative and modifies, almost nullifies, the effects of deficiency or failure of rains which in other parts, where the popular life is not so well adjusted and the popular mind not so well attuned, would result in serious and widespread distress.

53. Economic Adjustments.

Local production is, because of the precarious character of the monsoon and absence of other irrigational means, never a dependable quantity and even in the best of the years it meets only a fraction of local demand.

54. Local demand & how it is met.

The markets which supply more than $\frac{3}{4}$ th of the local demand are those of the Punjab, Sind ; for local production, even in fairly good years, seldom exceeds 1,00,000 maunds. The average for the past 10 years works out at 94,479 maunds. The deficiency is made good by the stock in hand and by import.

55. Factors which go to determine the prices of food grains.

The prices of food grains vary, as a rule, with those obtaining in the aforesaid markets. The other factors, which affect the prices, are the sufficiency or otherwise of local rains, the consequent increase or decrease in local production and the enhancement in good years, owing to larger influx, or reduction in bad year, through greater exodus in the local demand.

56. Mode of life, habits, pursuits, physical & mental Adjustment.

The bulk of the people depends for its subsistence on the rearing of cattle. There are tribes who live throughout the year in the open and who could go, even without water for days together. Their life is simple and their wants are few. Their luxuries are confined to a quid of tobacco, occasional pulls from the ubiquitous.

hukka and a friendly and fraternizing exchange of opium. A song or a dance, to the accompaniment of a drum or a flute, constitutes the height of their enjoyment. They are rude, they are rough and ready; but they are hospitable. They are kind at heart and one, who has had occasions to live with them, feels that their mode of life is not altogether without its amenities.

57. Migration. The wealth of the people in general who live a semi-nomadic life and move about with their cattle from place to place, consists of sheep, goats, camels and milch cattle. Besides, therefore, the natural forces of birth and death, migration is the principal factor, which more than anything else, contributes to the growth or to the diminution of population, and the gain by influx or the loss by exodus varies with the sufficiency or otherwise of seasonal rains. Scarcity or famine (terms which could not have the same significance here as is attached to them in more favoured parts) is hardly a factor which might be calculated to accelerate death and thereby cause a permanent reduction in the population of the State. People in large numbers, at the first signs of failure of the rains emigrate with their live-stock and herds of cattle, to the adjoining Provinces of Sind and Bahawalpur, where they can find pasturage for their animals and where a great demand for labour exists. This migration, on a smaller or larger scale, according as the rains have been good or bad, is, in fact, almost an annual event. Even in comparatively good years, as soon as the rains are over and the harvests gathered in, a portion of the people emigrates mostly to Sind and Bahawalpur to supplement their earnings. They, however, return to their homes in Jaisalmer, with money in their pockets and with, in several instances, increase in the members of their family due to births when the rainy season asserts itself. It is a reciprocal arrangement with the adjoining portions of Sind and Bahawalpur, for, the pastoral tribes of those places live partly there and pass a portion of the year in Jaisalmer. Migration, therefore, is a necessary condition of life. It serves an economic purpose. In years of deficient rainfall, it reduces the local demand and thereby eases down prices. In years of failure of rains it reduces the possibility of starvation to the minimum. It gives greater staying power. It supplements local earnings. It saves cattle, which, as said above, constitutes the wealth of the people in general. It is one of the most important factors which act as palliatives and which go to adjust local life to local conditions.

58. Rainfall & yield. The Administrative and the Financial year of the State commences on the 1st November and ends on the 31st October and as the Kharif harvest is usually gathered in by the end of November and Rabi sowings commence, as a rule, in that month, the out-turn of any given year depends on the rainfall of the preceding year.

59. Rains during 1922-23 The seasonal rains in 1922-23, on which depended the out-turn of the year under review, were fairly good and evenly distributed. The average for the State was 5·82 inches and the Rabi and Kharif out-turns were estimated at 11 and 10 annas in the rupee respectively.

on which depended the yield of the year under report.

60. Rains during the year under review and estimates of the next year's yield.

anna and 6 annas respectively.

The rainfall in the year 1923-24 was less than what it was in the preceding year. The average for the State worked out at 3'41 against 5'82 inches last year. The Rabi and Kharif yields for the next financial year are estimated at one and a half

61. Approximate Yield in Maunds.

The total approximate yield of cereals was less by 41,500 maunds as compared with the preceding year (1,54,000 against 1,95,500 last year), but it exceeded the

average of the past 10 years by 59,521 maunds.

62. Prices of food grains during the year under review.

Because of the smaller local output, the import of cereals was greater than that of the preceding year by 26,543 maunds. The prices of the staple articles of food—wheat, Bajra, Jowar—did not show much variation during the year

under report.

63. Traffic Import.

The total of import showed an increase of 28,089 maunds as compared with similar figures for the last year. The rise, was mainly attributable to greater imports of corn, sugar, dried fruits, etc.

64. The number of animals imported was, as compared with the preceding year, less by 16 heads—(1,050 against 1,034).

65. A reference to Appendix XXVII will go to show that there was an increase of 26,543 maunds in the import of corn, of 640 maunds in that of sugar and gur, of 89 maunds in that of dried fruits, of 106 maunds in that of metal and copper pots, 150 maunds in that of spices, of 92 maunds in that of dyes, of 239 maunds in that of bamboo baskets, of 43 maunds in that of hides and of 406 maunds in that of stone clay and grinding mills. The rise in the imports was due to bad local yield in consequence of deficient seasonal rains.

On the other hand there was a fall of 4 maunds in the import of silver, 5 maunds in that of cotton, of 160 maunds in that of oil, of 50 maunds in that of tobacco, of 20 maunds in that of cloth, of 4 maunds in that of ivory and of 21 maunds in other miscellaneous articles.

66. Export.

The principal items of export are ghee, wool, hides, stones, clay, grinding mills, camels, bullocks, sheep and goats. As compared with the preceding year and the average of the past 20 years, the export of articles showed a rise of 7,716 maunds and 1,549 maunds respectively. This was attributable to the increase of 815, 2,790 and 4,139 maunds in the exports of ghee, stone clay and grinding mills and corn respectively.

67. The exports of animals as compared with the last year and the average for the last 20 years showed a decrease of 27,632 and 3,901 heads respectively. This was due to decrease of 15,634 and 13,704 heads in the export of sheep and goats respectively.

68. Transit.

The transit traffic as compared with the preceding year and the average of past 20 years, showed a decrease of 134 and 2,565 maunds, respectively.

69. The transit of animals as compared with the preceding year showed an increase of 1,504 heads. It was, however, smaller than the average of past 20 years by 6,015 heads.

70. The total of Import, Export and Transit traffic showed an increase of 35,671 maunds and decrease of 27,855 maunds, respectively, if compared with similar figures of the preceding year and the average of the past 20 years. The total traffic—import, export and transit—of animals showed a fall of 24,019 and 9,539 heads, respectively, if compared with the last year and average of the past 20 years.

71. Approximate value of Imports and Exports.

The approximate value of Import and Export trade was 19,35,781 and 16,22,860 rupees, respectively.

72. Similar figures for the preceding year were 17,72,827 and 15,08,520 rupees, respectively. Thus the value of the Import and Export trade, as compared with the preceding year, was greater by 1,62,954 and 1,14,340 rupees, respectively. The value of import exceeded that of export by Rs. 3,12,921.

73. The balance of trade at the close of the period under review was, owing to larger imports, against Jaisalmer.

74. Trade Routes.

Jaisalmer depends largely for most of the necessities of life, on imports from outside. The bulk of the trade is with Sind and the Punjab *via* Daharki and to some extent, with the United Provinces. It is generally by this route, *i.e.*, *via* Daharki, that necessities of life are imported into the State.

75. The traffic with Marwar, Bikaner and some other parts of Rajputana, such as Beawar, &c. and with Gujarat and Bombay is generally *via* Barmer and Phalodi.

76. Variation in the volume of traffic at different seasons

Pack camels are obtainable on hire in fairly large numbers at Daharki, but they do not, as a rule, ply from the middle of April to the middle or end of July on account of excessive heat. They commence plying from August, but the traffic during the monsoon, August to October, *via* Daharki is comparatively small. It is brisk during the cold season *i.e.*, in November, December, January and February and to a certain extent in March.

77. Traffic via Barmer & Phalodi.

The traffic *via* Barmer and Phalodi is, on the other hand, brisk during the hot season, April to July, *i.e.*, during the period of its partial suspension with Sind and the Punjab *via* Daharki.

78. Time taken up in transport Distribution &c. of goods by rail & road via Daharki.

The transport of goods from Daharki to here, by road, takes about 15 to 20 days and nearly the same time is spent in ordering or arranging with the

Agents and transport by rail; so that, it takes about 5 to 6 weeks before the goods can reach here and their distribution through retail merchants in the various Hakumats also takes time, for, the State covers more than 16,000 square miles and the population though sparse, is spread over that wide area. It will thus be seen how essential it is always to have a sufficient stock in hand of the necessities of life.

79. Time taken via Barmer and Phalodi.

The goods that come *via* Barmer and Phalodi in Marwar take less time in transport by road as these stations are comparatively nearer than Daharki.

80. The following statement will show at a glance the principal articles of import and export and the quantities in which and the places from and to which they were imported and exported during the year under review:—

Statement showing the Principal articles of Import and Export and the quantities in which and the places from and to which they were Imported and Exported during the year 1923—24

M. R. SAPAT,
Dewan Jaisalmer State.

81. From what has been said above, it will be seen that cessation at any time of continuous and normal flow of traffic would, for Jaisalmer, mean economic strangulation and would, if prolonged, jeopardise the very existence of the State.

82. Principal routes. The principal trade routes are shown in the map below and the rates of tariff are given in the Appendix XXVI.

83. Route from here to Khanpur in Bahawalpur State. The capital is situated almost in the centre of the State. The principal trade route from here to Khanpur in Bahawalpur State is *via* Mohangarh-Nachna and *via* Dewa and Buili. There is also a direct route to Bahawalpur from Bap *via* Nokh, but it is not used at present for transport of goods.

84. Routes to Daharki. The routes to Daharki from the capital are *via* Ramgarh and Tanot and *via* Khuiala. There is also a direct track to Khairpur *via* Ghotoru and Shahgarh but it is also little used now for transport of goods.

85. Route to Thar Parkar Sind. There is also another route *via* Khaba and Mayajlar which leads to Gadro and Chhor in Thar Parkar (Sind).

86. Route to Ramsar and Ghagriyo The route *via* Lakha leads to Ramsar and Ghagriyo stations between Barmer and Gadro.

87. Routes to Marwar & Bikaner. The route to Barmer goes *via* Devikot and Vinjhorai; and that to Phalodi *via* Pokarn and Bap and that to Bikaner *via* Bap and Nokh.

88. Imports from Sind, Punjab, Marwar, Thar Parkar & Bikaner. The total quantity of goods imported from Sind and the Punjab *via* Daharki and Khanpur was 125,426 maunds and that from Thar Parkar was 9,977 and that from *via* Marwar 17,173 and that from Bikaner was 554 maunds.

89. Exports to Sind, the Punjab, Thar Parkar, Marwar and Bikaner. The exports *via* Daharki were 13,727 maunds, those to and *via* Marwar 21,013, those to Thar Parkar 410 and those to Bikaner 2,524 maunds.

90. Industrial Enterprise. There is very little of industrial enterprise in the State. The use of machinery is unknown. Among the chief manufactures of the State may be noted country cloth, woollen blankets—which very much resemble English homespuns—camel hair carpets, rugs and goat-hair bags—all woven by hand looms. Camel saddles and mill stones are also manufactured and exported. The stone work they turn out here is unique in design and beautiful to look at, but the prices charged are, owing to lack of competition, very heavy and so very little of it is exported.

91. State Grass Reserves. The State maintains reserves of grass in Nagarkantha, Dewa and Khaba Hakumats. As regards storage of grass by the State, the balance from 1922-1923 was, as stated in the last report, 20,467 maunds, to which 5,317 maunds were added during the year under review. The total quantity was raised to 25,784 maunds. Deducting therefrom 5,486 maunds the quantity consumed, the balance at the close of the year was 20,298 maunds.

92. Pasturage and condition of agricultural stock. There are extensive grazing grounds in Jaisalmer. The condition of agricultural stock was fairly good.

93. Migration. As regards the necessity for periodic migrations and the purpose they serve, a reference is invited to para-57 above. There was no abnormal immigration or emigration during the year under report.

94. Public Works Department. The total expenditure under the Public Works Department was Rs. 19,077 against Rs. 16,864 in the preceding year.

95. Excise. The contract for sale of Country liquor was given to distillers for Rs. 2,798 during the year.

96. Mint. No Minting Operations were undertaken during the year.

97. Post Office. There is one Government Post Office in the State and it is situated at the capital.

CHAPTER V.

98. Revenue & Finance. The Receipts and Disbursements of the State were both in Akheshahi and Kaldar. The average rate of exchange between the two currencies was, for the year under review, Rs. 130-2-0 Akheshahi equal to Rs. 100 Kaldar and the Financial Statement (Appendix XXI) has been worked out according to this rate.

99. Ordinary Receipts. The ordinary receipts for the year amounted to Rs. 3,52,779 against Rs. 3,05,098 in the preceding year. The increase of Rs. 47,681 was due to a rise under the heads Customs, Land Revenue, Slana Lag (House Tax) and Miscellaneous.

100. Ordinary Expenses. The ordinary expenses were Rs. 2,05,192 against Rs. 1,95,724 in the preceding year. The increase of Rs. 9,468 was mainly due to a rise under head Miscellaneous.

101 The ordinary receipts thus exceeded ordinary expenditure by Rs. 1,47,587.

102. Extraordinary Income.

The extraordinary income of the State was Rs. 73,195 against Rs. 77,768 in 1922-23. The decrease of Rs. 4,573 was due to fall under almost all the heads ; viz., Refund of Deposits, Recovery of advances and Netra and Marriage presents.

103. Extraordinary Expenses.

The Extraordinary expenses were Rs. 60,281 against Rs. 62,269 in the preceding year.

104. Total of Ordinary and Extraordinary Receipts and expenditure.

The total of Ordinary and Extraordinary receipts was Rs. 4,25,974 against Rs. 3,82,866 and that of expenditure was 2,65,473 against Rs. 2,57,993 in

1922-23 or in other words if compared with preceding year, the total of receipts and expenditure was greater by Rs. 43,108 and 7,480, respectively. The total of disbursements was less than that of Receipts by Rs. 1,60,501, so the closing balance was raised from Rs. 5,66,121 to Rs. 6,66,622.

105. As the State has to incur at times expenses which could not be foreseen or provided for in the Budget, it is essential to maintain, as far as possible, a decent balance in hand.

CHAPTER VI.

106. There is one Hospital and Dispensary in the State and it is situated at the Capital.

107. Patients treated.

107. The total number of patients who sought medical relief during the course of the year was 6,047 against 4,736 in the preceding year.

108. The figures are compared below :—

Year 1923-24			Year 1922-23.		
Outdoor	Indoor	Total	Outdoor.	Indoor.	Total
6,024	23	6,047	4,716	20	4,736

109 Expenditure.

The total expenditure in connection with the Institution including Vaccination, was Rs. 9,237 against Rs. 7,240 in the preceding year.

110. Registration of births and deaths in the town is accurate as there is separate establishment for the purpose and the work is supervised by the Mehkma khas

(Foreign Office). In the district, however, where the villages are few and far between, it is difficult to attain to the same degree of accuracy.

111. The number of births registered during the year was 1,699 and that of deaths 769. Similar figures for 1922-23 were 1,785 and 795 respectively.

CHAPTER VII.

112. Schools. The State maintains two Public Schools. There are also Primary Schools at Bap and Mohangarh to which grants-in-aid are given by the State. There are besides, two other private schools at the Capital.

113. The total number of boys on the rolls of the above institutions was 207 against 299 in the preceding year.

114 Result of Examinations. The annual examination of the State School was held in April 1924. Out of the 82 students who appeared, 62 got through and were promoted to Higher Standards.

115. Maharaja Kumar Shri Girdar Singhji Saheb prosecuted his studies in the Mayo College, Ajmer, during the year.

CHAPTER VIII.

116. Walterkrit Rajput Hitkarni Sabha. Out of 115 marriages (99 among Rajputs and 16 among Charans) there were only 4 cases of infringement of Sabha Rules.

117. The number of funeral was 71. There were two cases of infringement of rules.

118. Destruction of poisonous and wild animals. Rewards are offered by the Darbar for the destruction of mad dogs, wolves, snakes, Piwnas—a species of snake whose breath is said to be poisonous. A number of these animals and reptiles was destroyed during the year under review. The expenditure on this account amounted to Rs. 21 during the year.

119. Resident, Western Rajputana States. The best thanks of the Darbar are due to Lt.-Colonel A. D. Macpherson, I.A., Resident, Western Rajputana States, for his unvarying kindness and courtesy.

M. R. SAPAT.

Dewan, Faisalmer State.
